

MAKO

Midnight Black 5X Lake & Pond Dye
32 oz Liquid Concentrate

Professional Lake & Pond Water Colorant

Highly concentrated liquid dye creates a deep, reflective black finish while helping reduce sunlight penetration. Spreads quickly for fast color development in contained ponds, lakes, ornamental water features, fish hatcheries, golf course ponds, and other low-outflow waters.

Rapid Color Change

Reflective Black Finish

Sunlight Shading

Immediate Water Use

32 oz
liquid concentrate

Professional-Grade 5X Formula

Treats 1 acre
at 4–6 ft deep

HOW IT WORKS

Shake well and pour from shore or by boat. The concentrated dye disperses quickly through the water to create a deep, reflective appearance and help reduce sunlight penetration for a darker finished pond look.

IDEAL FOR

Contained ponds, lakes, ornamental water features, fish hatcheries, golf course ponds, and other low-outflow waters where a bold reflective black finish is desired.

QUICK USE GUIDE

Treatment Area	Dose	Notes
1/4 acre	8 oz	Scale to pond size
1/2 acre	16 oz	Pour around shoreline
1 acre, 4–6 ft deep	32 oz	Full-rate application

Reapply as needed for color maintenance. Always follow label directions.
