

# MAKO

Perfect Blue 5X Lake & Pond Dye  
32 oz Liquid Concentrate

## Professional Lake & Pond Water Colorant

Highly concentrated liquid dye creates a clean, natural-looking blue tone while helping reduce sunlight penetration. Spreads quickly for fast color development in contained ponds, lakes, ornamental water features, fish hatcheries, and other low-outflow waters.

Rapid Color Change

Natural Blue Tone

Sunlight Shading

Immediate Water Use

32 oz liquid concentrate

Professional-Grade 5X Formula

Treats 1 acre at 4–6 ft deep

### HOW IT WORKS

Shake well and pour from shore or by boat. The concentrated dye disperses quickly through the water to create a clean blue appearance and help reduce sunlight penetration for a more finished pond look.

### IDEAL FOR

Contained ponds, lakes, ornamental water features, fish hatcheries, golf course ponds, and other very low-outflow waters where a natural blue finish is desired.

### QUICK USE GUIDE

Treatment Area	Dose	Notes
1/4 acre	8 oz	Scale to pond size
1/2 acre	16 oz	Pour around shoreline
1 acre, 4–6 ft deep	32 oz	Full-rate application

Reapply as needed for color maintenance. Always follow label directions.
