## Industrial Strength Septic Super Shock X2 Combo Kit

5 Gal Super Shock + 48 Bio-Packs | Liquid + Bio-Packet Septic Treatment

Two-part septic treatment kit for active septic and drainfield problems. The liquid shock delivers an 85 trillion microbe dose, while the 48 monthly Bio-Packs maintain microbial activity after the initial treatment.

### 85 trillion shock dose

High-density bio-enzymatic liquid dose for stubborn septic loading.

### 48-month follow-up

Monthly Bio-Packs help keep microbial power thriving after shock treatment.

### System-wide use

For tanks, drain lines, cesspits, leach fields, mounds and filter beds.

## Two-Part Recovery + Maintenance Program

Liquid shock first. Monthly Bio-Packs after.

1

### Liquid Super Shock

85 trillion microbes instantly. Reaches field in minutes and targets sludge, fats, paper and bio-mat.

2

### 48 Monthly Bio-Packs

5 billion per gram slow-release packets. Maintains high microbe count for 48 months and keeps pathways open.

Official kit: 5 Gal liquid + 48 Bio-Packs

## What Each Part Does

Liquid Shock starts. Bio-Packs sustain.

Measure	Liquid	Bio-Packs
Microbes	85 trillion	5B / gram
Primary role	Jump-start	Maintain
Field timing	Minutes	Gradual
Soil pathways	Creates	Keeps open
Flow role	Restores	Prevents re-clog

**Bottom line:** Liquid Shock starts the program; Bio-Packs help sustain it for 48 months.

## Product data

**SKU:** NTB852  
**UPC:** 811744010312  
**Unit Count:** 5 Gallon + 48 Pack  
**Active Ingredient:** Beneficial Microbial Cultures and Enzymes

**Category / Brand:** Septic System Treatments; NewTechBio  
**Product Form:** Biodegradable packet, Liquid  
**Weight / Dimensions:** 58 lb; 16 in L x 16 in W x 18 in H  
**Label / SDS:** Product label available; SDS: available

Listing accuracy: 05/04/2026

## When to Choose This Kit

- 1) Septic tank or drain field is already clogged or ponding.
- 2) Stubborn organic loading in septic tanks, cesspits, leach fields or sand mounds.
- 3) You want an initial liquid shock plus 48 months of scheduled Bio-Pack maintenance.
- 4) Use for tanks, drain lines, cesspits, raised and sand mounds, dosing chambers and filter beds.

## Use + Expectations

Review the product label and Treatment Guide before use. Product effects visible flow improvement in days. Specs list the formula as chemical-free, non-toxic, non-pathogenic, Made in the USA and non-hazardous when used as directed.

**Governance note:** Supplements the label and SDS. Use only as directed; results vary by site conditions and application.
